

The letters, one a page

الحُرُوف، حَرْفٌ بِصَفْحَةٍ

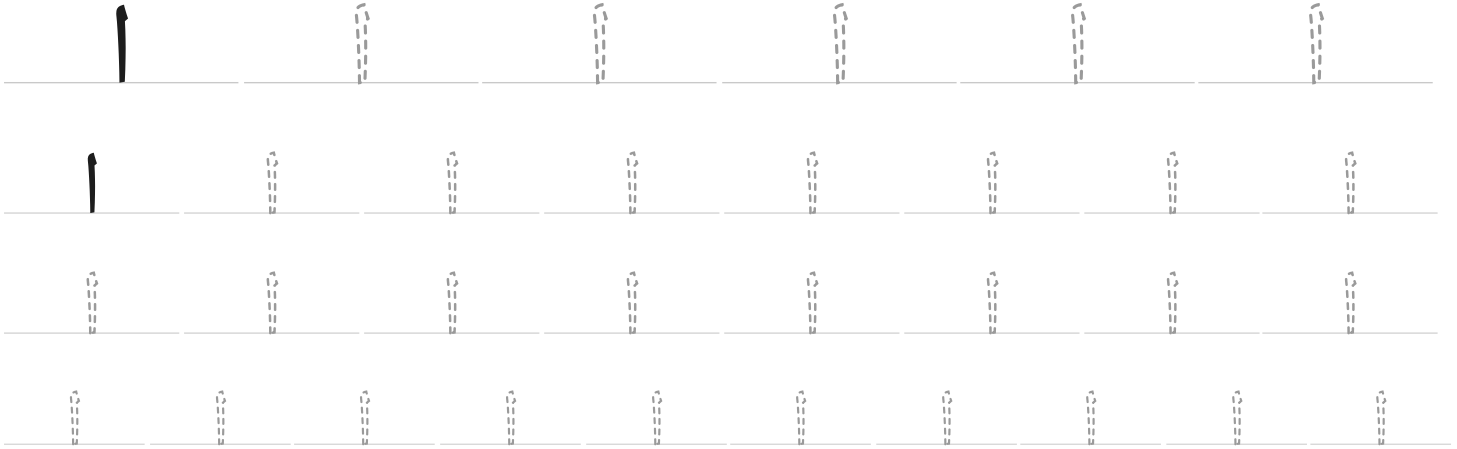

All 28 letters. Each sheet gives you the letter written properly, its sound in English and in Ukrainian letters, the shapes it wears inside a word, and eleven lines to write it.

1. Say the sound out loud every single time you write the letter — the hand and the ear learn together.
2. Start at the right and move left. The dots come last, after the body of the letter is finished.
3. Trace the dotted letters first. Then cover the line and write it again on the empty ones.
4. When you can write a letter without looking at the model, go on to the next sheet.
